Linford Musiyambodza

Tech Entrepreneur | Future Data Analyst | Scholarship-Driven Learner

⊙ Cape Town, South Africa ☏ +27 72 414 4805 @ linfordlee14@gmail.com
✉ Porfolio ✉ Linkedin ✉ Github

Summary

Aspiring Data Analyst with hands-on experience in analyzing real-world datasets, building dashboards with Power BI, and applying Python and SQL for insights. Certified in Data Analytics (ALX), with strong skills in Excel, data visualization, and problem-solving. Passionate about using data to drive decision-making, innovation, and business growth in fast-paced environments.

Experience

Linfy Tech Solutions
October 2024 – Present

CEO & Data Analyst
Cape Town, South Africa

- Designed and analyzed internal project data for finance and savings insights using Python and Power BI.
- Built dashboards and reports for the **Save Smart App**, helping users track their savings goals.
- Collaborated with developers and a project manager in an agile setup to build and test app features.
- Presented weekly insights and product suggestions to improve financial literacy tools.

Education

ALX Africa
(Ongoing, 2025 - 2026)

Data Science
Remote – ALX Africa

Rusthof High School
(2019 - 2023)

Matric Certificate
High School Bachelor
Bachelor Pass

Projects

Personal Finance Tracker
(Personal Project | Mar 2025)

🔗 github

Developed a Jupyter Notebook tool to analyze monthly personal expenses.

Automated budget summaries using Python, producing pie charts and trends using matplotlib/seaborn.

Wildlife Conservation AI Model
(Remote Project | Mar–Apr 2025)

🔗 github

- Used Python (pandas, scikit-learn) to build a regression model predicting black rhino poaching risks.
- Cleaned environmental and location datasets using pandas and visualized results using matplotlib.
- Wrote a detailed project report and shared results with a conservation-focused academic team.

Skills

Languages & Tools
Python (pandas, NumPy, scikit-learn), SQL (MySQL), Excel, Power BI
● ● ● ● ●

Data Analysis:
Data cleaning, transformation, exploratory analysis
● ● ● ● ●

Visualization
Power BI, Excel charts, matplotlib, seaborn
● ● ● ● ●

Collaboration
Git/GitHub, Google Workspace, Slack, Firebase
● ● ● ● ●

Interests

Data Visualization

Cybersecurity

Business Intelliegence
